TITLE HEADING

Provision for Village School buildings during 1905-06

From

The Inspr Genl of Edn in Mysore

No 9659/603 Dated 2/5/05 Received 6/5/05

Diary No 7608	Enclos	Spare Copies	Serial No 1

BRIEF ABSTRACT OF LETTER

Submits a list of Village School buildings Requiring appropriations from the Village School Fund during 1905-06 and Requests that a liberal grant may be sanctioned for the purpose.

NOTES AND ORDERS

The list of buildings submitted by the Dy/ involves a cost of Rs 23424 and the Dy/ requests that as large a portion of this amount as is possible may be sanctioned

NOTES—First sheet

File No 312 of 1904-05

Serial No

Last year & the year before last special grants of Rs 10000 each, were sanctioned over & above the normal grant of Rs 5000 In a few previous years such special grants were even larger To the best of my recollection such grants out of the Lumpsum at the credit of the Village School Funds were promised by a few words in minuted order of Govt.

See the order of Govt Jy 2077/03 wherein it was directed that hereafter no buildings for Schools & the newly established should ordinarily be constructed at the cost of Village School Fund

that after completion of the buildings which have been already promised on the strength of contributions actually paid by private persons, the normal building grant of Rs 5000 should not on any account be exceeded & that no more allowance of contribution

Serial No

for such buildings should be received until further orders. It is clear from the that it was the intention of Government that no proposals already made on the strength of communications received should be fulfilled by the Debt. There are many such cases (about 33) in the list now submitted by Govt. There are also two incomplete works which remain to be completed at a cost of Rs 922 + 1247 = 2169, the carrying of several of these works of urgent necessity the claim of which have been brought to notice in the 29th Less. A special grant for 1905/06 & a few subsequent years seem under the circumstances inevitable. It is a matter for regret that the Resident did not make his application with

I am afraid the money required will have to come from the funded surplus unless a grant could be made from State Funds of which the latter there seems no possibility. This I quite admit is a matter for regret.

I believe that are Upper Primary Schools for Talukh Branch Schools but none for Village Schools. The office will please verify this before submission to the Dewan.

The scheme referred to by the Dewan is the one published at pages of the Madras Mail of the 26th Ultimo herewith returned. The conditions in Madras seem to be different from those prevailing in Mysore Paras 7 & 9 of Dr Bourne's Memo may however be sent to Mr Babbage for such observations & suggestions as he may wish

Mr Gokhale 21/8/05

The Govt of India has made large grants for primary education to all the provinces It has granted six lakhs this year to Madras but is expected that this grant will not only be renewed every year but increased in future years Dr Bourne has with the consent of the Madras Govt decided to spend these six lakhs of this year on providing buildings for village schools The village schools are local fund schools ~~maintained~~ maintained on the

15

General and Revenue
Secretariat

File No 372 of 1904

Serial No

results grant system by the Boards. This Results grant system has been condemned by the Govt of India, and the teachers of the rural schools are thereby less than a small fixed pay with a capitation and other special grants for furniture &c. For building Dr Bourne is of opinion that about Rs 400 will suffice for a kutcha building, the building remaining as the property of Govt. The D.I. Boards I have seen nearly all of them represented by the D.P.I. that Rs 400 will not suffice for a building of the size & kind described by them but that from Rs 600 to 800 will be required. The Boards themselves are unable to supplement the grants & they can get but little from the villagers under the circumstances. Dr Bourne when I consulted them from 600 to 800 Rs will have to be come by for from the sex talkas. It is time I have for want of funds recommended kutcha buildings as the best submitted to Govt, much against my will. The late Chief Engineer Col Bowen used to think kutcha buildings a waste of money as they would require annual repairs & last about 15 to 20 years. ...m also of the same opinion. I request that in all important villages, where the school has existed for a long time, permanent type buildings alone should be erected from the invested surplus. A good school building should be a model of neatness, & a centre of education to villagers, and there is no better use to which to put the invested surplus. Now that the Village School Fund Budget has been balanced on both sides, nothing need be drawn from the invested surplus except for buildings. The surplus was originally intended to meet the expenses of a famine, but of such a dreadful calamity

villages, & as the State should come to the help of the Village School Fund, by the recommendation I suggest that Govt may be pleased to grant the blessing of good school buildings for villages from the invested surplus. The question is becoming a very serious problem for all Village schools

MGCPB 1200—05

Submitted to His Highness

for kind disposal ①

In submitting a list of Village School Buildings requiring appropriations during the current year aggregating £3,424 the Inspector General of Education brings to notice that the provision of £5,000 made therefor in the current year's Village School Fund Budget is too small even to keep the school buildings in repair, that many buildings of considerable importance have of late deteriorated and applies, therefore, for an additional grant of £10,000, from the invested savings of the Village School Fund. The Inspector General also states that contributions towards the cost of some of the buildings proposed to be constructed were received long before the date of the Government Order No 242-3/2-96, dated 20th July 1903, which expressly directed that no more deposits of contributions for such buildings should be received until further orders.

The list sent in by the Inspector

General shows that out of 52 new wor s for which appropriation is required, contributions in respect of 25 buildings have already been collected and there are also several works of urgent necessity

The question of constructing cheap atcha Buildings was considered r Bhabha who was consulted in the ma ter thought this a waste of money, as these required continual repairs and would last about 15 to 20 years He was, therefore, in favor of permanent type buildings being constructed in important villages where the school has existed for a long time To this the First Councillor also agreed

Vol office note

There are 5 standard type designs f Village School Buildings and the estimated c of each, according to the dimensions of the building, is as noted below -

Design No	I	-	-	₹ 698
-do-	II	-	-	1,068
-do-	III	-	-	" 2,069
-do-	IV	-	-	2,331
-do-	V	-	-	2,788

The spending of money on atcha buildings

did not seem to be of much practical utility, and as the type designs for school buildings were also not extravagant, the Chief Engineer was requested to see, before further action was taken, if any reduction in cost was feasible

Vide office note

The Chief Engineer thinks that some reduction might be effected by reducing the thickness of walls (from 1½ to 1½) and the rate for flooring as noted here under -

	Original	odified	Differenc
I -	698	613	₹ 85
II -	1,068	940	128
III -	2,069	1,820	249
IV -	2,331	2,032	299
V -	2,788	2,420	368

Ans.

After careful consideration, I am of opinion that the type plans with the modifications suggested by the Chief Engineer (with the exception of reducing the thickness of walls), might be adopted, pukka buildings being provided wherever possible I beg, therefore, to recommend that an additional grant of ₹ 10,000, may be made for the purpose, in addition to the sum of ₹ 5,000 already provided for in the current

year's budget. Of this, Rs 2,500 will be met from the sanctioned budget as the receipts exceed the expenditure budget amount, and the balance of Rs 7,500 will have to be sanctioned from the invested surplus as a supplemental grant. Such special grants were sanctioned during the years 1903-04 and 1904-05.

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 2659/603 with 1 list Bangalore 2nd May 1905 (1)

From

H J BHABHA Esq M A
Inspector General of Education in Mysore

To

P K Venkat Vardengar Esq,
Secretary to the Government of H.H. the
Maharaja of Mysore,
Revenue and Revenue Departments

SIR,

With reference to my letter No 8699/541 dated 28 March 1905 forwarding the budget estimates of the Village School Fund, I have the honour to submit herewith a list of building works requiring appropriations from the Village School Fund during the ensuing official year 1905-6 The incomplete works carried out through the agency of the PWD will require Rs 2,169 to complete them in the ensuing year A sum of Rs 18,255 is required for new Village School buildings Towards the cost of some of these buildings subscriptions from villagers varying in amount were received long before the instructions contained in para 6 of Government order No 242-3/Ed 3 3-96 dated 20 July 1903 were issued

2

As the construction of Standard buildings for village Schools is now prohibited, the cost of Kaleha buildings for such villages as have contributed some subscription, or in the case of other villages a substantial grant-in-aid has been provided in the list of projected buildings. A sum of Rs 3,000 is entered for minor works and Repairs The total amount required for village-School buildings is Rs 23,424 Many school buildings of considerable importance are in urgent need of repairs and have greatly deteriorated of late for want of funds to repair them under these circumstances I earnestly request that Government will be good enough to sanction as large an amount as possible for buildings over and above the normal provision which is nominally fixed at Rs 5,000

I have the honour to be,

Sir,

Your most obedient servant,

H J Stubbs

Inspector General

	Remarks
	works (continued)
	A site was purchased for 150 Rs from Chekka Tamma of Pikkere through the Dy Commissioner, Mysore for the extension of the school compound. It is necessary to extend the present school house
	The extension of the school is necessary on account of increased attendance. The estimate has been prepared by the Executive Engineer
	The strength of the school is 32. The people's contribution of 100 Rs towards the cost of the new building has been paid into the Treasury.
	The people have paid 50 Rs into the Taluk Treasury towards the cost of constructing a new school house in the village
	The present school house is situated in an unhealthy locality and is too dilapidated to be repaired. The school is a very good one, the strength being 122 & the average daily attendance 97. The present building will fetch 120 Rs if sold. The situation of the present building does not admit of any extension. The Dy Inspector sends an estimate for Rs 800/- for a building with a hall 18'X12' and 2 rooms 10'X8' each with a verandah 6' wide.
	The school is now held in an open mantapam which is not suitable for school purposes. The villagers have paid 50 Rs as a contribution towards the cost of constructing a new building
	The number on the roll was 33 in 1901-2 and 16 in 1902-3. The present building is unsuitable. The people's contribution amounts to Rs 80 + 16-3-8 interest on the investment or Rs 96-3-8 in all. The contributions with the interest on the investment upto date will come to about 100 Rs
	The present Kalta building which is not suitable for the school will fetch about 100 Rs if sold. The school has a prospect of having a roll of 60. A new building is necessary. The present school house is Govt property. The school is now held temporarily in a temple

appropriation during the official year 1905–6

table or preceding for 1905–6	Remarks
works (continued)	
	The School now held in the Ahirkhana which is situated in a very unhealthy locality. It is not safe to hold the School in the Ahirkhana lest to dwelling houses on account of the frequent outbreak of plague at Nandiad. A building 20' X 14½' with a verandah costing Rs 290 has been proposed to be erected. The Mahammadans have contributed Rs 30/-
	The Begar people have contributed Rs 25/- The School has been working for the last 5 years. It is likely to flourish. An estimate for a building 20' X 12' has been prepared by the Dy Inspector for Rs 271/- The School now held in a temple which is not suitable for the progress of the children.
	A part of the present School house has tumbled down. It is necessary to construct a new building. The people's subscriptions amount to Rs 30. The villagers plead their inability to pay more towards the cost of the new construction.
	The School is at present very badly housed. The people have contributed Rs 174 towards the cost of a new building. A new building with 2 rooms each measuring 24' X 10' is estimated to cost Rs 400/-
	Roll 62 – added 49. The accommodation in the present School house is not sufficient. It is necessary to extend the building on the site already purchased. The extension estimated to cost about Rs 300/-
	An additional room with a verandah is necessary. The increased accommodation urgently wanted. The Dy Inspector reports the necessity for a verandah.
	It is necessary to extend the building in order to provide for more accommodation urgently wanted.

re School Fund —
required for the Official year 1905–6

Serial No.	Remarks
6	Works (Concluded)
	The present building will fetch about 200 Rs if sold Rs 165/- sometimes for the repairs has not been utilised and is held in deposit, as it would be a waste of money to repair the old School house It is necessary to construct a new building The only suitable site available will cost Rs 450
	This work sanctioned in 1904-5 was kept in abeyance for want of funds in that year (Vide Govt No (4675-7)-87-4 dt 2nd December 1904
	The repairs are necessary as estimated by the Executive Engineer, Shimoga Division The estimated cost includes the P.W. establishment and Tools charges
	The people have begun the work of constructing a new building which is estimated to cost 570 Rs Of this amount the contribution paid by the villagers comes to Rs 250 - The balance is required to be paid from the Village School Fund towards the completion of the School house on condition that the new building when ready is made over to the Education Department
	The house given by the people fell into a dilapidated state in 1904 and was sold by auction for 26 Rs in the same month. The villagers are too poor to pay more towards the cost of a new building An estimate for a Kaleha building 20'X12' has been prepared
	This work is very necessary for the accommodation of the Hindustani School & the infant classes of the Kannada School An estimate has been prepared
	x The estimate has been prepared by the Executive Engineer The Senior Councillor has noticed the need for these repairs

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE (10)

No 1054/66

~~Bangalore~~ Nandidrug 1 June 1904

From

H J HABIB Esq I A S
Inspector General of Education in Mysore

To

B K Venkataveradoss Iyengar Esq
Secretary to the Government of His Highness
the Maharaja of Mysore Revenue and General Depts
Bangalore

SIR,

With reference to para 4 of Order No Fl 7 EO-1 / Fd(-3o of 04) dated 18 May 1904 I have the honour to inform you that the list of village school buildings requiring appropriation from the Village School Fund in 1904-05 was submitted with this office No 9o9 dated 4 May 1904 I regret that there was delay in submitting the list as the writer who is in charge of building works was away on leave first on account of the serious illness of his wife and subsequently on account of her death The normal provision of Rs 5000 for buildings usually entered in the preliminary estimates of the Village School Fund Budget is such too small even to keep the school buildings in repair In fact I have brought to the notice of Government for several years past and Government have usually sanctioned a much larger sum for buildings

2 The schools at Kalkad in H Narasipur Taluk and at Bargur in Heggadadevanakote Taluk, which have been sanctioned and have been under construction since last year, alone require together an appropriation of Rs 2109 and the usual provision for petty repairs and disinfection charges is Rs 5000 The Lakkavalli double school in Tarikere Taluk is practically without a building It is temporarily accommodated in a dark and dingy private chatram The school will have to be closed unless a new building is erected as soon as t

the rainy season is over at a cost of not less than Rs 500 The building of the Sakrepatna Taluk Branch School in Kadur Taluk fell down and was sold by auction. There is no suitable house in the village that can be rented for the school The one now rented is very unsuitable The cost of a new building inclusive of the cost of a site will not be less than Rs 2500 The extension of the Amartur Taluk Branch School was sanctioned by Government Order No 1675-7)-89-4 Ed dated 2 December 1904 at a cost of Rs 1329 but has not been carried out for want of funds The old Taluk Cutchery in which the Nagar Taluk Branch School is held is in a very dangerous state and wants immediate repairs at a cost of Rs 406 The Lobli school at Uchhangi in Manjarabad taluk requires a grant of Rs 320 for a new building estimated to cost Rs 570 towards which the people have contributed Rs 250 The building is in course of erection by the people The repairs of the old Petta school at Budihal in Hosdurg Taluk require an appropriation of Rs 552. The repairs of the Kandavara School in Chikballapur Taluk require an appropriation of Rs 499

3 Altogether 18 villages have paid years ago more than Rs 100 each as their contribution to the cost of a new school building Fairly good katcha buildings for these villages are estimated to cost Rs 4287 exclusive of the people's contributions Six other villages have contributed to the cost of their new school building by the sale of the old and condemned building and in other ways The new school houses for these villages will cost Rs 5009 The extensions and repairs of eight other large buildings are estimated to cost Rs 4341

4 Under the above circumstances I submit once more that unless a liberal grant for buildings is sanctioned many of the buildings at present in need of reconstruction and repairs will fall in ruins or rapidly deteriorate and require much heavier expenditure for their restoration in the end The sanctioned

12

sanctioned budget estimates of receipts exceed the sanctioned expenditure for 1965-66 by Rs 2004 I request that this amount as well as a sum of at least Rs 7000 from the invested savings of the Village School Fund making together with the Rs 5000 already budgeted a total amount of Rs 14,000 for utilising the [illegible] sanctioned for 1965-66

I have the honour to be

Sir

Your obedient servant

H.J. Mahbha

Inspector General

SUBJECT

MGCPB—3000—11-3-04

Order thereon

No 6463-5 Ed (12-04) dt 19-12-05

In the circumstances stated an addl grant of Rs 10,000 will be made ~~to be sanctioned~~ for Village School building during the Current year of which Rs 2,500 will be met from the sanctioned Village School Fund Budget as the receipts exceed the expenditure by a little over that amount and the balance of Rs 7,500 ~~is to be sanctioned as a Supplemental grant~~ from the invested Surplus to the credit of the V. S. Fund The D.G.I is requested to submit at an early date a list showing the distribution of the total amount of Rs 15,000 A for Village School buildings.

2 The Govt of H.H the Maharaja of Mysore agree

GRS 27]

GENERAL AND REVENUE
SECRETARIAT

(Continuation Sheet of form)

worthi the Govt of Bihar in
Considering that the erection
of Kutcha buildings for Village
Schools is a waste of money,
as such buildings require
Continual repairs and will
last only from 15 to 20 years
There are already 5 Sanctioned
type designs for Village Schools
the Chief Engineer who was Con-
sulted as to whether any reduction
in the cost of these designs was
feasible, states that hence
reduction ~~might~~ could be effected
by reducing the thickness
of walls and the rate of flooring
as shown hereunder:—

Designs	Original Estimate	Estimate proposed to be modified	Difference
No I	Rs 698	Rs 613	Rs 85
" II	" 1068	" 940	" 128
" III	" 2069	" 1820	" 249
" IV	" 2331	" 2032	" 29
" V	" 2778	" 2420	" 31

2. After careful consideration
the Govt are of opinion that
the type designs with the modi-
fications suggested by the Chief
Engineer (with the exception of

MGCI B—50 000—5 4 0

reducing the thickness of walls
~~must~~ be adopted ~~in~~ blokka buildings
being provided wherever possible
